Portfolio: Pooja K P

Professional Summary

To obtain a Software Testing position that encourages learning,professional development, and the application of my testing skills to deliver reliable and efficient software solutions.

Skills Summary

- **SQL:** Query writing, joins, grouping functions, normalization and working with Oracle SQL*Plus.
- **Core Java:** OOP concepts including classes, objects,inheritance, polymorphism, abstraction, interface.
- **Manual Testing:** SDLC, STLC, Agile Methodology, Functional Testing, Regression Testing, Integration Testing, System Testing, Defect Life Cycle, Defect Tracking and Reporting, Test Scenario Creation, Test Case Design and Test Case Execution, Black Box Testing,Performance Testing.
- **API Testing:** Hands-on experience in REST API Testing using Postman, Request / Response Validation, HTTP Methods, HTTP Status Codes verification.
- **Automation Testing (Selenium):** Selenium WebDriver Methods, Proficient in using implicit wait,Browser Controlling Methods, locating WebElements using locators and xpath, taking Webpage Screenshot,TestNG, PageObjectModel.
- **Tools/Platforms:** VS Code, Jira, Jmeter, Postman, Swagger, Git, GitHub, Antigravity, Cursor, IBM Bob.
- **Soft Skills:** Problem-Solving, Teamwork, Positive Discipline, Quick Learner.

Experience

Qspiders
Trainee — *Bengaluru, Karnataka*

- **SDET Java**: Completed a software testing course and gained hands-on experience in writing manual test scenarios and test cases, performing different types of software testing, automating web applications using test scripts with Selenium. Performed API testing using Postman, tracked defects in Jira, and wrote Oracle SQL queries with joins. Applied core Java concepts including OOPs, classes, objects, and exception handling.

Cloud Innovations
Full Stack with Python Intern — *Internship*

- Worked on full-stack web development using Python, Django, SQL, HTML, CSS, and JavaScript, building and testing application features.

Projects

- **Sentinel – AI Agent Trust & Governance Layer** (IBM Bob 2.0 Hackathon)
  Collaborated in a two-person team to build a governance and audit layer for IBM Bob that monitors agent actions, scores risk through a rule-based policy engine, halts high-risk steps until a human approves them, and logs each event in a tamper-evident SHA-256 hash chain with tamper detection. Implemented FastAPI services, a PostgreSQL schema, and a React dashboard featuring, approval queue, and jointly handled integration and testing.
  Tech: Python, FastAPI, React (Vite), PostgreSQL, SQLAlchemy, Docker, SHA-256, Neon DB, Vercel.
- **Shop Cart (E-Commerce Web Application):** Developed a Hybrid Automation Framework which is a combination of method driven,modular driven,data driven framework. Automated key modules like Login, Product Search, Shopping Cart,Wishlist, Checkout. Created test scenarios,test cases from business requirements.And implemented data driven framework by using Apache POI.
  Tech: Java, Selenium WebDriver, TestNG, Hybrid FrameWork, Apache POI, POM.
- **Traceo:** Developed a full-stack productivity tracking system using React, FastAPI, PostgreSQL, a Python Desktop Agent, and a Chrome Extension to track application and browser and youtube activity.
  Tech: Python, React, FastAPI, PostgreSQL, Desktop Agent, Chrome Extension.
- **Online Voting System Using Face Recognition:** Designed a secure online voting system using face recognition technology to prevent multiple voting and improve the drawbacks of manual voting systems.
  Tech: Python, Django, SQL, HTML, CSS, Face Recognition Libraries.
- **Portfolio Website:** Developed a responsive personal portfolio highlighting technical skills and projects.
  Tech: HTML, CSS, JavaScript.

Education

Universal Engineering College — Thrissur, Kerala
Bachelor of Technology – Computer Science and Engineering; CGPA: 7.1 — *2021 – 2025*

GFVHSS Kaipamangalam — Thrissur, Kerala
Higher Secondary Education; Percentage: 90% — *2019 – 2021*

OLFGHS Mathilakam — Thrissur, Kerala
Secondary Education; Percentage: 88% — *2019*
